

HYDROLINK™ WATERING SYSTEM

Trojan knows the importance of battery maintenance and the impact it has on a battery's life. Battery maintenance, particularly, battery watering, can be time-consuming, and messy.

With Trojan Battery's innovative HydroLink™ Watering System, you can experience faster, easier and safer battery watering. With HydroLink, a complete set of batteries can be watered in less than 30 seconds!

Features	Benefits
Reduces acid spills	Lowers cost of ownership by reducing overfilling which increases battery life and maintains a longer battery run time.
Independent water level indicator	Non mechanical and easy-to-read. Takes the guess work out of when to add water to the battery. Saves maintenance time.
Internal and external flame arrestors	Safest watering system in the industry - helps prevent any spark or flame from entering the battery.
Cost-effective	Saves valuable time and money
Guaranteed to work with your Trojan batteries*	Four-year, limited warranty
Compatibility	The HydroLink Watering System is compatible with 6-volt, 8-volt and 12-volt Trojan batteries. Clampless tubing allows for customizable configuration in any application.

Independent water level indicator

Optical water indicator signal

Coupler connection with water flow indicator

Snake tubing

Clampless tubing
(available for customizable configurations)

Trojan batteries are available worldwide through Trojan's Master Distributor Network. We offer outstanding technical support, provided by full-time application engineers.
